

# Prashant Joshi

## Frontend Developer

Jaipur, Rajasthan

Phone: 9024346630 | Email: prashantpj03@gmail.com | [Linkedin](#) | [Portfolio](#)

## Professional Summary

---

A passionate and detail-oriented **Frontend Developer** with 2 years of hands-on experience in building dynamic, responsive, and high-performance web applications. Proficient in **React.js**, **Redux Toolkit**, and **JavaScript**, with a solid understanding of modern frontend architectures, state management, and component-based development. Skilled in translating design concepts into clean, maintainable, and scalable code while ensuring seamless user experiences. Passionate about staying updated with the latest web technologies and best practices to continuously deliver efficient and intuitive solutions.

During my tenure, I spent 1 year working on the Builder Platform, where I successfully delivered multiple projects, ensuring optimized performance, scalability, and a seamless user experience. My experience includes collaborating with cross-functional teams to deliver high-quality projects and leading personal initiatives to refine my technical skills.

## Technical skills

---

- **Web Technologies:** HTML, CSS, Javascript, React.js, Next.js
- **Backend Technologies:** Node.js
- **Programming Languages:** C, C++
- **Database Management :** MongoDB
- **Version Control:** Git, Github
- **Other Tools:** React-Three-Fiber ,GSAP, Socket-IO, Tailwind CSS, Material UI

## Education

---

Master of Computer Applications (MCA)

S.S Jain Subodh PG College, 2021 - 2023

Bachelor of Computer Applications (BCA)

S.S Jain Subodh PG College, 2018 – 2021

## Professional Experience

---

**ATUM Information Technology** (March 2025 – Present)

Frontend Developer

- Collaborating within a dynamic development team to design and implement responsive, scalable, and high-performance web applications using React.js.
- Developing user-friendly, interactive UI components with reusable, maintainable code structures following modern JavaScript (ES6+) standards.
- Integrating RESTful APIs and third-party services, ensuring seamless data handling and optimized front-end performance.
- Identified and resolved performance bottlenecks, ensuring seamless user experiences and optimizing the overall application performance.

## Deeporion Technology Pvt. Ltd. (Apr 2023 – Feb 2025)

### Frontend Developer

- Developed and maintained the company's website using **React.js**, **Redux**, and **Tailwind CSS**, ensuring a fully responsive and high-performance web application.
- Worked for 1 year on the Builder Platform, successfully delivering multiple projects by developing scalable and reusable UI components and ensuring a seamless user experience.
- Collaborated with cross-functional teams to design and implement scalable, reusable UI components, improving development efficiency and maintaining consistent design patterns.
- Leveraged both functional and class components to create feature-rich, efficient **web applications**, enhancing code maintainability and scalability.
- Identified and resolved performance bottlenecks, ensuring seamless user experiences and optimizing the overall application performance.

## Projects

---

### E-Ride App

- **Description:** E-Ride is a modern ride-booking web application designed for seamless transportation services across the UK. As a dedicated React.js Developer on the project, I was responsible for building and maintaining intuitive and responsive user interfaces using React and Material-UI.

### OMNI Food Website

- **Description:** Designed and developed a modern, fully responsive website for a food delivery service. Focused on delivering an engaging user experience with optimized performance and clean, aesthetic UI/UX design.

### Movie App

- **Description:** Created a fully responsive movie application showcasing the latest movies and TV shows. Integrated the TMDB API for dynamic content fetching, implemented Redux for efficient state management, and crafted intuitive, mobile-friendly user interfaces using Tailwind CSS.

### Chat App

- **Description:** Developed a real-time chat application enabling instant communication between users. Integrated Socket.IO for real-time messaging, implemented Redux for seamless state management, and ensured a responsive and visually appealing design using Material-UI.

### 3D Shop

- **Description:** Developed an interactive 3D shopping platform that delivers an immersive user experience. Leveraged advanced 3D rendering techniques using React Three Fiber to create a visually engaging and innovative interface.

## Certifications

---

C/C++ Programming  
React.js Development

## Hobbies and Interests

---

- Exploring emerging web technologies to stay updated with industry trends.
- Learning and experimenting with 3D visualization techniques to expand creative capabilities.
